## *Industry meets Development*

*EU Development Policy in the Light of the German Council Presidency*

After 13 years, Germany took once again over the EU Council Presidency on 1 July 2020. The Federation of German Industries (BDI) took this opportunity to strengthen its development policy engagement in Brussels.

In the light of the German EU Council Presidency, this webinar therefore offers the opportunity to gain first-hand information on the priorities of the German EU Presidency in the area of development policy, with a special focus on private sector engagement, and to discuss ideas on various development-related issues that are relevant to industry players, including potential challenges and opportunities for industry in this area.
