

Invitation

Webinar: Pharmaceutical and Vaccine
Manufacturing in Ghana

Dear Partners,
we cordially invite you to

Pharmaceutical and Vaccine Manufacturing in Ghana

Opportunities for European Companies

February 19th, 2025 from 10:30 am to 12:00 pm CET
Online via Teams

[Register here until February 18th, 2025](#)

The virtual event will provide insights into Ghana's health care market, manufacturing and regulatory landscape as well investment opportunities and support available for European pharmaceutical manufacturers and technology providers.

Ghana is positioning itself as a pharmaceutical manufacturing hub in Africa, building on a strong regulatory environment, experienced local pharmaceutical manufactures, vibrant research institutions as well as good investment conditions. Since 2021, Ghana has also embarked on creating domestic vaccine manufacturing capacities.

Under the Team Europe Initiative Manufacturing and Access to Vaccines, Medicines and Health Technologies in Africa (MAV+), the European Union (EU) and the German Federal Ministry for Economic Cooperation and Development (BMZ) are working with government and private sector stakeholders to strengthen the ecosystem for Ghana's pharmaceutical manufacturing industry. In this context, GIZ provides advice and support for B2B partnerships between Ghanaian and European companies.

The event follows up on the Round Table that BMZ is regularly organizing with the pharmaceutical industry.

For detailed information and partnership inquiries, please join the event or reach out to GIZ Ghana at viktor.siebert@giz.de.

A detailed programme can be found [here](#).

We are looking forward to welcoming you to our event. Please do not hesitate to forward this invitation within your network.
