

SAUDI INTERNATIONAL MEDICAL
TECHNOLOGY & SERVICES EXPO

14-16 DECEMBER 2026
RIYADH FRONT EXHIBITION &
CONFERENCE CENTER

STRATEGIC PARTNER

الجمعية السعودية
لعلوم المختبرات الإكلينيكية
Saudi Society for Clinical Laboratory Sciences

Shaping the Future of Healthcare:

Technology, Collaboration & Sustainability

www.medtechsaudi.com

The MedTech Saudi is the Kingdom's flagship platform for innovation, investment, and collaboration in the healthcare technology sector.

Held in Riyadh, Saudi Arabia, the exhibition unites medical manufacturers, healthcare providers, investors, and policymakers from around the world to showcase the future of medical technology and healthcare delivery.

What to Expect

Experience the latest advancements in

- Medical Devices & Equipment
- Digital Health & AI Solutions
- Diagnostics & Laboratory Technologies
- Pharmaceuticals & Therapeutics
- Hospital Infrastructure & Smart Healthcare Systems
- Imaging & Monitoring Technologies

The exhibition offers unparalleled opportunities to explore innovations, build partnerships, and access emerging markets across the Middle East.

Event Highlights

Exhibition Showcase

Explore cutting-edge technologies from leading global and regional companies.

Expert Forums

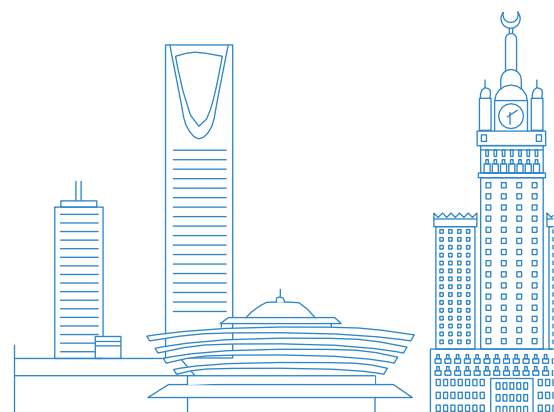

Learn from thought leaders and innovators driving healthcare transformation.

B2B Matchmaking

Connect with key decision-makers, distributors, and investors.

Innovation Awards

Recognize excellence and breakthrough achievements in medical technology.

Who Should Exhibit

Medical Equipment & Diagnostic Imaging

(Core exhibition area covering equipment needs from large hospitals to specialized clinics)

- Advanced Medical Imaging Equipment
- Patient Monitoring Equipment
- Operating Room & ICU Equipment
- In-Vitro Diagnostic Equipment & Reagents
- Reagents & consumables

Digital Health & Healthcare IT

(Fastest-growing sector aligned with Saudi Arabia's smart hospital and digital transformation)

- Hospital Information Systems
- Telemedicine & Telehealth
- Healthcare Big Data & AI
- Cybersecurity & Data Privacy

Medical Consumables, Implants & Instruments

(High demand for disposable products, key focus for trade and localized manufacturing)

- Disposable Medical Consumables
- Surgical Instruments & Equipment
- Orthopedics & Implants
- Pharmaceuticals & Therapeutics
- Dental Equipment & Materials

Hospital Construction, Facility Management & Services

(Targeting Saudi Arabia's massive hospital construction and upgrade projects)

- Hospital Planning & Design
- Medical Facility Operations Management
- Medical Gas Engineering
- Hospital Energy & Environmental Solutions

Rehabilitation & Elderly Care

(Emerging market addressing population growth and aging trends)

- Rehabilitation Equipment
- Assistive Devices
- Elderly Care Technology & Services

Laboratory Equipment & Life Sciences Research

(Supporting medical research and precision medicine development)

- Laboratory Instruments & Analytical Equipment
- Biosafety & Laboratory Furniture
- Life Science Tools & Reagents

Healthcare Investment, Management & Consulting

(Providing strategic support for healthcare system modernization)

- Healthcare Investment & Financing
- Hospital Management & Consulting
- Government Agencies & Industry Associations

المملكة العربية السعودية
KINGDOM OF SAUDI ARABIA

Aligned with
Saudi Vision 2030

The MedTech Saudi proudly supports the goals of Saudi Vision 2030 – the Kingdom's ambitious roadmap for economic diversification and social development.

Under Vision 2030, healthcare is a central pillar of national transformation. The program aims to:

- Modernize healthcare infrastructure to ensure accessibility and efficiency for all citizens.
- Promote digital transformation through smart health systems and AI-driven innovation.
- Encourage private-sector participation and foreign investment to drive sustainability and competitiveness.
- Develop local manufacturing capabilities in medical devices and healthcare technology.

By gathering global and regional leaders in one space, this exhibition serves as a strategic platform to accelerate these goals – helping position Saudi Arabia as a regional hub for medical technology and life sciences.

Right Place. Right Time. Right Opportunities

Saudi Arabia's healthcare sector is undergoing a historic transformation, driven by strong government investment and a clear national vision for progress.

With one of the largest healthcare markets in the Middle East, Saudi Arabia presents exceptional opportunities for investment, technology transfer, and strategic collaboration — making it an ideal destination for innovators and industry leaders in medical technology.

- The Kingdom's healthcare market is projected to exceed USD 80 billion by 2030, reflecting a compound annual growth rate (CAGR) of 7-9%.
- The medical devices market alone is expected to reach USD 5.6 billion by 2028, driven by demand for advanced diagnostic and digital health

technologies.

- Over USD 65 billion in healthcare infrastructure projects are underway, including new hospitals, clinics, and specialized research centers.
- Digital health adoption is accelerating, with over 70% of hospitals integrating telemedicine and AI-based diagnostic tools by 2025.
- The government aims to localize 40% of medical device manufacturing by 2030 to boost national resilience and innovation.

This surge in development presents unprecedented opportunities for global technology providers, investors, and innovators to establish partnerships, expand market presence, and shape the next era of healthcare in Saudi Arabia.

The Organiser- GL Middle East

GL Middle East is a leading organizer of international trade fairs, conferences, and industry

events across the Kingdom of Saudi Arabia. With a focus on strategic sectors that support Saudi Vision 2030, GL creates professional platforms that foster business development, knowledge exchange, and international collaboration.

Based in Riyadh, GL Middle East as part of the internationally recognised GL Exhibitions network, delivers high-impact trade platforms that foster business growth, innovation, and cross-border collaboration. GL works closely with government ministries, national agencies, and private sector partners to deliver exhibitions that connect global innovation with Saudi Arabia's rapidly expanding industries — including healthcare, science, technology, agriculture, trade and manufacturing.

GL's portfolio covers events that drive real economic and technological growth, enabling global brands and local enterprises to explore new opportunities within the Kingdom's evolving non-oil economy. With a strong commitment to excellence, GL fosters platforms that promote knowledge exchange, technology advancement, and sustainable partnerships.

Be part of the MedTech Saudi 2026— where global innovation aligns with national transformation, and the future of healthcare takes shape in the heart of the Kingdom.
